

Bibliography of links: Electronic Delivery

Midwest Chapter of MLA meeting, GMR Technical Forum

Springfield, IL October 11, 2004

Susan E. Hill

ARIEL website, Infotrieve: Here is a preliminary description of the new Ariel 4.0 and its prices: <http://www.infotrieve.com/ariel/index.html>

Store and forward server information: <http://www.infotrieve.com/ariel/sfserver.html>

Basics of Electronic Delivery CE course: <http://nnlm.gov/train/edd/>

This one is very comprehensive and would be a great overview.

docMD Project website <http://docmd.med.ohio-state.edu/resources.html>

The docMD Project is a good model for a region-wide electronic delivery system.

DOCLINE FAQ This FAQ is extremely helpful in determining to whom your request for electronic delivery will route.

http://www.nlm.nih.gov/services/doc_email_deliv.html

FREESHARE About FREESHARE including directions for refining your searches in DOCLINE: <http://nnlm.gov/libinfo/docline/freeshare.html>

Fujitsu rebuilt scanners on ebay:

<http://www.fcpa.com/partners/where-to-buy/ebay.html>

Hospital Libraries Electronic Delivery Discussion list

<http://www.hls.mlanet.org/itforum>

ISO-PROTOCOL for Interlibrary Loan:

<http://www.arl.org/access/naildd/ipig/res/portugal.shtml>

IPIG (Interlibrary Loan Protocol Implementers Group) did not include standards for electronic delivery. Inter-operability among I.L.L. systems depends on standards.

Konica-Minolta digital black and white copier/scanner/fax: Di2510F:
